

Tech mash-up

Programs used:

- ➔ Adobe InDesign CS6
- ➔ Adobe Photoshop CS6

Cover for the 2004 Technology in Banking Conference. I played on the visual simlie of the routes of a circuit board mimicking the flutes of a Greek column, such as could be found in the financial district of a major city.

Convention promotion

Programs used:

- ➔ Adobe InDesign
- ➔ Adobe Photoshop

Cover for the April 2004 Texas Banking magazine. The Communications Director came up with the concept, and I took pieces from the brochure and imposed them on a photo I took of a Rubik's cube in Photoshop. The background is also a digital invention.

Marketing campaign

Programs used:

- ➔ Adobe InDesign
- ➔ Adobe Photoshop

Marketing concept that I collaborated with the Banclnsure director on developing. I took the photos of the two 'agents', and digitaly 'balanced' the hats on the the left subject in Photoshop. The background is a digital invention.

Fraud prevention

Programs used:

- ➔ Adobe InDesign
- ➔ Adobe Photoshop

Poster to be displayed in participating banks statewide promoting a new program offered by the Banker's Association aimed at educating their customers to avoid risky behaviors that could lead to identity theft.
